ABOUT

CSELab a free learning and a knowledge warehouse for those who are interested in creating an enabling entrepreneurial environment, fostering Corporate Social Entrepreneurship (CSE), amplifying corporate purpose and values as well as building strategic alliances in order to solve economic and social problems and to promote the success of emerging innovative business strategies.

CSELab has been developed by EMBRACE project partnership with the support of ERASMUS+ program funding.
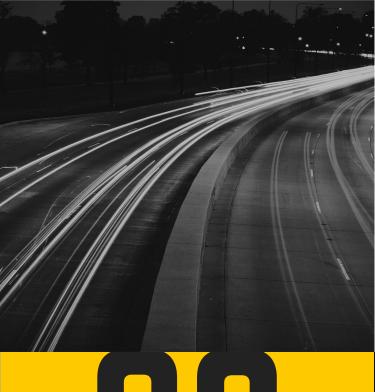

"Corporate Social Entrepreneurship (CSE) is 'a way of doing business' so that all staff in any given organisation (public, private or third sector) are fully aware of their role, responsibility, and contribution to the sustainable socioeconomic enhancement of their organisations and the communities in which they live and work. The CSE process includes creating an enabling entrepreneurial environment, fostering corporate social intrapreneurship, amplifying corporate purpose and values as well as building strategic alliances to solve economic and social problems and to promote the success of emerging innovative business strategies" (EMRACE, 2020).
